

OFFICIAL COSMONAUTS

AMADEE-20

THIS IS NOT A MOON WATCH. IT IS THE SPACE WATCH.

TOOL WATCH. REDEFINED.

A Tool Watch is more than useful features in a scratch-resistant case. It is about connecting team, spirit and purpose.

AMADEE-20 has been built to support earthlings on their way to Mars. It is a piece of human history.

Created in partnership with the Austrian Space Forum, the Fortis AMADEE-20 supports the analog astronauts on their mission in the desert of Israel and in the Mission Support Center in Innsbruck.

The perfect companion.

For trailblazers. For visionaries who inspire our world and beyond. For those who change tomorrow. For pioneers, explorers and future Martians.
